- **The village of Gela** is about 7 km from Shiroka Laka. That is one of the oldest villages in the whole Rhodope region. Many bits and facts allow scientists to maintain the opinion that this is the native place of the mythical singer and musician Orpheus.
- **Trigrad** – beautiful village situated at 23 km from Devin.
- **Trigradsko zhdrelo** (*The gorge of Trigradska River*) – on the road that leads from Devin to Trigrad - immense sheer rocks, dug in the marble that at some places form very narrow passage. Stunning view.
- **Dyavolskoto garlo cave** (*Devil's throat cave*) – 21 km from Devin and 2 km from Trigrad. Falling through a precipice with depth of 42 m, the waters of Trigradska river flow through that huge and extraordinary cave, in which the river has formed 18 underground waterfalls.
- **Buynovsko zhdrelo** (*The gorge of Buynovska River*) – the gorges of Buynovo are situated a few kilometers south from Trigrad, along the course of river Buynovska, feeder of river Vacha. Not far from the crossroad of Teshel, the rocks almost touch each other forming majestic gorges. The wild waters of the river have dug through the limestone creating a real magical place in the mountain. The rocks are so close to each other that a man will have the feeling he can easily jump on the other side. In the valley of a small tributary to river Buynovska there is another natural phenomenon – the Devil's bridge. This rocky arch is 10 m long and 2-3 m wide, at a height of 30 m above the wild waters. According to the legend only the Devil can pass over to the other side.
